We went over the general idea of my creative outline. The movie is very fun and whimsical, so I want the website to have that feeling to it. Understanding plot and setting are important, but not as necessary to create that tone. I don't have a clear vision for layout, so that is up to Hannah! It is not as important to me as long as the tone remains clear. I also don't want to focus on the negative reviews of the movie and just make it a fun and informational website.

Also, if Hannah has more questions, she has my number so communication will be very clear yay!
